OBJECTIVE

Detail-oriented and innovative Python Full-Stack Developer with comprehensive expertise in front-end technologies and back-end development (Python, MySQL, Django). Adept at leveraging full-stack engineering skills to develop high-quality, responsive, and scalable web applications. Proven ability in Agile development methodologies, responsive web design, aiming to drive business objectives through user-centric solutions. With a commitment to excellence and continuous skill enhancement, I am seeking to contribute to a collaborative and innovative team environment, utilizing my problem-solving capabilities and technical proficiency to advance web development projects.

SKILLS

- **Web Technologies:** HTML5, CSS3, JavaScript, DOM manipulation
 - **Programming Language:** Python, JavaScript,
 - **Frameworks:** Django
 - **Databases:** MySQL
 - **Development Tools:** GitHub, Visual Studio Code
 - **APIs:** Experience with REST API for web services integration
 - **Soft Skills:** Problem-solving, Critical Thinking, Responsive Web Design, Adaptability
-

PROFESSIONAL EXPERIENCE

Micro Irrigation Marketing Consultant, Jayam Traders, Coimbatore | **2021 - 2023**

- Managed land surveys and coordinated irrigation projects, liaising with govt bodies to secure farmer subsidies.
-

PROJECTS

Interactive Web Features for Enhanced User Experience (Frontend) (checkout)

- Developed an interactive, responsive web interface with CSS and JavaScript, featuring dynamic navigation, slideshow controls, and content adaptation, enhancing user experience and cross-device functionality.

Interactive Quiz Platform Development (Full Stack)

- Developed an interactive quiz platform using Django for backend operations, including user management and API creation, and leveraged JavaScript along with AJAX for dynamic frontend interactions. Employed CSS for responsive design and visual feedback, enhancing user experience across various devices.

User Management System (Full Stack)

- Integrates full-stack web development with technologies like JavaScript, HTML, CSS on the front-end, and Django for backend management, demonstrating robust handling of user interfaces and database interactions.

Portfolio Responsive Website (checkout)

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript, showcasing my web development projects and skills in a user-friendly interface.
-
